Summer Sewer Credit

1

Lake County Summer Sewer Credit

During the summer months of May through August, Lake County and the Village have agreed to a sanitary summer sewer credit to account for the fact that not all water used during this period enters the sanitary sewer system. Consequently, residents will be billed for their total water usage, but the sewer charge will be capped at 120% of the average usage from the preceding eight winter months.

2

Summer Sewer Credit Bills

Since the Village bills in arrears, residents will see the summer sewer credit applied on the July, August, September and October bills. No need to request this credit, it is applied to your account automatically.

3

Summer Sewer Credit Billing Cycles

July 1 Bill = May Usage
Aug. 1 Bill = June Usage
Sept. 1 Bill = July Usage
Oct. 1 Bill = August Usage

4

When is the summer sewer credit <u>not</u> applied?

- Water usage from September-April (November-June bills).
- Customers without a usage history of one year.

5

Reminder

Keep these dates in mind when filling a pool, using your irrigation system, and planning landscape projects.
