

Federal Emergency Management Agency

Washington, D.C. 20472

APR 20 1993

The Honorable Barbara LaPiana
Mayor of the Village of Lincolnshire
1 Olde Half Day Road
Lincolnshire, Illinois 60069

IN REPLY REFER TO:
Case No.: 93-05-984A
Community: Village of Lincolnshire,
Lake County, Illinois
Community No.: 170378
Map Panel No.: 0005 C

T-218-65-RS

Dear Mayor LaPiana:

This is in reference to a letter dated March 26, 1993, from Mr. John McFarland of Baxter Homes, requesting that the Federal Emergency Management Agency (FEMA) determine whether the properties listed below are located within a Special Flood Hazard Area (SFHA), an area that would be inundated by the 100-year (one-percent annual chance) flood. These properties have been elevated by the placement of fill.

Property Description: Rivershire Subdivision, Lots 50, 51, 52, 53, 66, 68, 70, 71, 79, 81, and 92, as shown on the plat recorded as Document No. 2882535 at the Lake County Recorder of Deed's Office on March 1, 1990

Street Address: 361, 363, 365, and 367 Rivershire Court
526, 530, 534, 536, 552, 556, and 561 Rivershire Place

Community: Village of Lincolnshire

State: Illinois

All fees necessary to process this Letter of Map Revision (LOMR) (a total of \$200) have been received.

On April 8, 1993, we received all of the information necessary to process this LOMR request. After comparing this information with the National Flood Insurance Program (NFIP) map for the Village of Lincolnshire, Lake County, Illinois, we have determined that Lots 50, 51, 70, and 79 would not be inundated by the 100-year flood. In addition, we have determined that although portions of Lots 52, 53, 66, 68, 71, 81, and 92 would be inundated by a 100-year flood, the existing structures on these properties would not. Therefore, this letter revises the map for the Village of Lincolnshire, Illinois (NFIP Map Number 170378, Panel 0005 C, dated June 11, 1982), to remove these lots and these structures from the SFHA. Because portions of Lots 52, 53, 66, 68, 71, 81, and 92 are located within the SFHA, any future construction or substantial improvement on these properties remain subject to Federal, State, and local regulations for floodplain management.

Please note that these properties could be inundated by a flood greater than a 100-year flood or by local flooding conditions not shown on the NFIP map. Flood insurance is available at a reduced cost for properties located outside the SFHA. Also, although we have based our determination on the flood information presently available, flood conditions may change or new information may be generated that would supersede this determination.

A copy of this LOMR is being forwarded to your community's official NFIP map repository where, in accordance with regulations adopted by your community, it should be attached to the community's official record copy of the NFIP map, which is available for public inspection.

To ensure continued eligibility to participate in the NFIP, your community must enforce its floodplain management regulations using, at a minimum, the flood elevations and zone designations shown on your community's NFIP map, including the revision made effective by this letter. This response to the request is based on the minimum criteria established by the NFIP. State and community officials, based on knowledge of local conditions and in the interest of public safety, may set higher standards for construction in the floodplain. If the State of Illinois or your community has adopted more restrictive or comprehensive floodplain management criteria, these criteria take precedence over the minimum Federal criteria.

This revision has been made pursuant to Section 206 of the Flood Disaster Protection Act of 1973 (P.L. 93-234) and is in accordance with the National Flood Insurance Act of 1968, as amended (Title XIII of the Housing and Urban Development Act of 1968, P.L. 90-448) 42 U.S.C. 4001-4128, and 44 CFR Part 65.

This revision is effective as of the date of this letter. However, a request for reconsideration must be made within 30 days. Any requests for reconsideration must be based on scientific or technical data.

This LOMR will not be printed and distributed at this time to primary map users such as local insurance agents and mortgage lenders; therefore, the community will serve as a repository for these new data. We also encourage you to disseminate the information reflected by this LOMR throughout the community in order that interested persons such as property owners, insurance agents and mortgage lenders may benefit from this information. We also encourage you to consider preparing an article for publication in the community's local newspaper. This article should describe the changes that have been made and the assistance the community will provide in serving as a clearinghouse for these data and interpreting NFIP maps.
