Fall Leaf Pickup – Begins Mid-October

The annual Leaf Collection program begins on October 16, 2017. Leaves **must** be placed in the parkway by noon on Monday of your specified pickup week to guarantee collection during that week. **Please do not put leaves in the street.**

Leaf pickup is scheduled for Monday through Friday as follows:

For residents west of Riverwoods Road	For residents east of Riverwoods Road
October 16 - October 20	October 23 - October 27
October 30 - November 3	November 6 - November 10
November 13 - November 17	November 20 - November 24

Please do not to mix brush, garden waste, tree limbs, vines, lumber, etc. with the leaves. These materials can cause equipment failure or injury. Residents can rake leaves into the parkway prior to the pick-up week. **Please do not put leaves in the street.** Leaves raked into the street may result in hazardous driving conditions and clog storm sewer inlets causing localized flooding and is a violation of Section 8-3-8 of the Village Code. Please notify your landscaper, if applicable, of the Village’s leaf pickup schedule.

Your cooperation is vital to the success of this program. Please contact Waste Management at 800-796-9600 if you have any questions regarding this program.

PUBLIC WORKS

Sump Pump Discharge

Village Code requires residents to disconnect sump pump discharges that flow to the street and redirect the flow onto their own property between November 1st and April 1st. This is done to prevent ice buildup in the streets which creates a hazard to both motorists and pedestrians, as well as cause excessive damage to our roadways and snow removal equipment.

Clean Your Grates

In the fall and spring, and after heavy rains, residents are encouraged to check the storm sewer grates on the street by their house and in their yard. Grates clogged with leaves and trash can cause flooding. Please remove the debris away from the grate. If the debris is large, contact Wendy Moderhack at the Public Works Facility at 847-913-2380 or wmoderhack@lincolnshireil.gov to request assistance.

Facts About Storm Water

- « Storm water comes from rainfall.
- « Storm water that does not soak into the ground becomes runoff.
- « Runoff becomes polluted as it runs along roofs, lawns, parking lots, construction sites, and roads.
- « Runoff contains pollutants such as pesticides & fertilizer, automotive fluids, pet waste, litter and yard waste.
- « Polluted surface runoff flows into storm sewers that eventually flows into waterways (rivers, streams, and ponds).
- « Storm runoff is NOT treated before it enters the waterways.
- « Storm sewers are designed to collect storm water from streets, sidewalks, and parking lots to prevent flooding.
- « Everyone can help reduce the amount of litter and pollution carried in storm water. Please do your part to keep storm water clean.
- « Report illegal dumping or spills to Public Works at 847-913-2380, or in an emergency, dial 911.
