IMPERVIOUS SURFACE CALCULATION SHEET

The Village of Lincolnshire regulates the amount of impervious surfaces. Impervious surface is defined as "any man-made area that alters the natural surface course for or does not allow for the natural rate of absorption or retention of storm water. Such areas may include, but are not limited by reason of exclusion from the following list of examples, roofs, parking and driveway areas, graveled areas, sidewalks and bike paths, paved recreational areas, swimming pools, porches, decks and patios" (Section 6-2-2 of the Lincolnshire Village Code). *Please complete the following calculations to determine the total impervious surface area for the property.*

IMPERVIOUS SURFACE TYPE	IMPERVIOUS SURFACE AREA (sq. ft.)			
	Existing		Proposed	
Building Footprint (including garage)				
Driveway				
Walks				
Decks				
Porches				
Patios				
Swimming Pools				
Detached Storage Structure (shed)				
Gazebo				
Recreational Structure				
Other (list)				
TOTAL	(a)	sq. ft.	(b)	sq. ft.

IMPERVIOUS SURFACE RATIO

ACKNOWLEDGMENT AND SIGNATURE

By signing this document, I hereby acknowledge, understand and accept that I, the owner/representative of the owner seeking a permit from the Village of Lincolnshire for the property listed above, am responsible for compliance with the requirements of this Program. I understand all work must be completed and approved by October 31 (of the year the permit was issued) and any incentive payment is contingent upon fulfillment of all the permit requirements and submission of an itemized record of payment for construction costs. I understand eligibility for the program is contingent upon a review of Village records to confirm the subject property does not have pending code violations or past due payments.
